

October 28, 2014

Dear clients and partners,

We are pleased to announce the acquisition of Rewatec GmbH and Rota GmbH by Premier Tech Ltd.

Premier Tech, a Canadian international company with over 90 years of history originating from a German background, has been building its know-how and reputation on the expertise and synergy of its three Groups: Horticulture and Agriculture, Industrial Equipment and Environmental Technologies. With close to 3 000 team members and sales of € 400 million, Premier Tech is a leader in the field of packaged water and wastewater solutions, and its teams have achieved spectacular technological and commercial advances over the past few years.

Rewatec and Rota will now be doing business under the umbrella of Premier Tech Aqua and will add to the European presence of Premier Tech's Environmental Technologies Group in France, England, Ireland and Portugal. That European presence is expected to accelerate following the deployment of the product and market synergies inherent to the integration of Rewatec and Rota into the greater Premier Tech family.

Premier Tech Aqua, whose mission will be to deploy its brands and products on the German and European markets, remains under the management of Mr. Marco Rumberg, surrounded by the same team of professionals, committed to maintaining this long and sustained culture of innovation, manufacturing excellence and close relationships with its commercial partners.

"Integrating the Premier Tech family is a major and positive step for Rewatec, Rota and their team members, and it gives us an even greater potential to continue innovating as we have done over the last 20 years," said Marco Rumberg. By uniting our companies, we aim to improve our commercial offers and bring new and innovative products and services in order to strengthen our partnership with you, dear clients and partners.

We are proud to join forces and are committed to accelerating research and development according to the environmental challenges that may arise in the future, and to improving the quality of our products and services always with a view to working in partnership with you in order to meet your expectations.

Sincerely,

Henri Ouellet
President,
Environmental Technologies Group
Premier Tech

Marco Rumberg
