

# SOLIDO SMART XL SMALL WASTEWATER TREATMENT PLANTS

# REWATEC<sup>®</sup>

2022 product range

**MULTI-TANK  
SYSTEMS  
FOR 51–100 PT**

**2022**

# SOLIDO SMART XL

**Ideal for: communal facilities, restaurants, guesthouses, hotels, commercial applications**

Three or four-tank system

3-year guarantee on wastewater treatment technology (provided maintenance work is performed by authorised specialist company)

25-year tank guarantee

Tested in accordance with EN 12566-3

## SMART - The versatile option

- Easily expandable thanks to the modular structure
- Easy to install and high performance

## Direct aeration (without primary treatment)

- Less sewage sludge
- Virtually odourless
- Economical – only approx. EUR 15 in electricity per person per year

## Highly resistant and easy to install treatment tanks

- Seamlessly manufactured from wastewater-resistant, high-quality polyethylene
- Extremely compact, stable and highly durable
- Can be driven on by car and truck
- Reinforced X-Line tank type can be installed in the groundwater up to the tank shoulder
- Easy handling during transport and installation
- In-house production in Mecklenburg-West Pomerania

## Flexible and reliable wastewater treatment technology

Solido SMART XL is extremely versatile. It copes effortlessly with load fluctuations and is therefore ideally suited to applications with seasonal fluctuations. Should the operating conditions change significantly, the system can easily be adapted to the new conditions. Parts of the system can be switched off if necessary or the system can expand with the needs of the users.

**The owner thus makes a risk-free investment in a future-proof wastewater solution.**

# SBR-COMplete SYSTEMS (51-100 PT)

## Scope of delivery of Solido SMART XL complete system (per tank):

- Pre-assembled BL treatment tank, universal pipe DN 160, inlet DN 160
- Riser (up to specified inlet depth, see below) and walk-on cover (with childproof lock)
- 2 tube diffusers, air inlet nozzle with 3 m hose
- Technology capsule with 15 m cable, control and overflow alarm for lifters

### The Solido SMART technology capsule

**Guaranteed reliability:** The high level of air exchange (approx. 180 times per hour) and the inherent heat during operation reliably protect the technology. Condensed water or sewage gases don't stand a chance.

## Solido SMART XL

Suitable for groundwater up to the **tank equator**

Solido SMART XL	Max. inhabitants	Tank type	Compressor (l/min)	Order no. Standard
EBL-99X3	75 PT	3 x 10000	3 x 210 W (200)	KEBL99X3
EBL-99X4	100 PT	4 x 10000	4 x 210 W (200)	KEBL99X4

Suitable for groundwater up to the **tank shoulder, reinforced X-Line tank type**

Reinforced X-Line tank type, surcharge for increased wall thickness per tank	KKZT0409
--	----------

Technical data for BL tank type (round tank) 10000			
Weight (tank only)	kg		410
Length (L)	cm		340
Width	cm		231
Installation depth (ID)	cm	min.	291
	cm	max.	334
Inlet (lower edge) to ground (Ein)	cm	min.	51
	cm	max.	134
Inlet (lower edge) to tank bottom (Bin) Alternative inlet	cm		240
	cm		200
Height offset inlet -> outlet	cm		42
	cm		5
Diagonal	cm		324

Accessories	Order no.
Version is <b>“technology outside of the tank”</b> instead of technology capsule, <b>same price as</b> standard version: Compressor + controller for protected installation outside the tank, including connections for a maximum distance of 15 m	KKZT01**
Surcharge for P elimination (< 1 mg/l), dosing pump (encapsulated) and precipitant shaft	On request
Riser extensions for greater installation depths, risers/covers that can be driven on, see brochure for Solido SBR System small wastewater treatment plants at <a href="http://rewatec.de/kataloge/">rewatec.de/kataloge/</a>	

The systems shown are **not** designed for an inflow of external water (inflow of rainwater or surface water through leaky underground pipes or faulty connection of rainwater downpipes).

## PREMIER TECH – MADE IN GERMANY QUALITY FOR OUR WORLD

Making a difference by connecting people and technology. This is the ethos of Premier Tech Water and Environment, based in Boizenburg. Our team members develop innovations for responsible rainwater and wastewater management. In doing so, we are constantly redefining what can be achieved using sustain-

able local solutions. As part of a Canadian family business, we create water technologies that are in demand worldwide. Based on German expertise and produced in Mecklenburg-West Pomerania. Protecting our environment for the future is what drives us and is our shared passion.

More than 350,000 systems installed worldwide

100% recyclable polyethylene tanks

Quality and sustainability  
Tanks guaranteed up to 35 years
